

Waya Wolf Coin

I. Introduction

Waya Wolf Coin, ticker WW, is designed as an alternate payment method for goods and services. It was originally designed for the now defunct Cryptopia Market Place. Due to the low number of coins, the price of coin should increase since the current swap is over for this new incarnation of WW. Once the value of the coin reaches a critical point, the coin will be submitted to payment services.

Waya Wolf Coin is unique because it is a community driven coin. The advancements of the coin are community driven and funded. Goals for coin are, taken one at a time, introduced by the owner and then the community at large discusses ways for a solution until a resolution is made. The community plans ways to achieve the resolution. A key unique feature of WW is the aspect of voting among the community.

II. History

Waya Wolf Coin, WW, was originally released on October 21, 2016, as a payment method for items in the now-defunct Cryptopia Store. It was a pure Proof of Work, PoW, based on the Scrypt algorithm coin aimed at low hash individuals so all could mine it. This wasn't the case. In September, 2021 Waya Wolf Coin was remade to be a hybrid coin, that is Proof of Stake, PoS, and PoW. The PoW algorithm was kept as Scrypt. Now a radical change has been made in June, 2024 where the Scrypt algorithm base has been replaced by the HMQ1725 algorithm. This algorithm is ASIC resistant and should be open for all to mine. The hybrid nature of the coin remains intact.

III. Coin Statistics

Coin Name	Waya Wolf Coin
Ticker	WW
Address Letter	W
Algorithm	HMQ1725
Coin Type	Experimental POS + POW Hybrid
Default Data Directory	WayaWolfV3
P2P Port	9952
RPC Port	9953
Block Time	~3 Minutes
Drift Time	~10 Minutes
Minimum Stake Confirms	10
Minimum Stake Age	~3 Days
Initial Reward	6.25 WW
Initial Block Halving	44,640 Blocks
Halving Events	175,000 Blocks
Block Explorer	http://5.189.147.158:3030/
Swap Premine	10,060,000 WW
All Other Premines	0 WW
Coins in Circulation After Swap	~2,901,000 WW

VI. Future Directions

The immediate goals for WW is to build infrastructure as soon as the swap for the 3rd version WW is over. This includes listings on CoinGecko and CoinPaprika, the revision of the webpages, revisions to the Discord server, as well as many other changes. The development of a web based store where users can list items for sale and items sought after using WW as a payment method. Increase the user base for the Waya Wolf Coin who active in the community. The Kamania Faucets was the first step to this goal, however we need to find other avenues in which we as a community can spread the word. Of course, we seek to raise the price of WW. Listing WW on at least one other exchange.
